PROFESSIONAL SUMMARY

Seeking a Network Engineer Internship where I can apply my knowledge of routing, switching, VLAN configuration, network troubleshooting, and Cisco technologies while gaining practical experience in enterprise networking environments. IT undergraduate (HNDIT) with hands-on experience in network simulation, hardware troubleshooting, and full-stack development, backed by CCNA and CCNP-level Cisco certifications.

TECHNICAL SKILLS

Programming Languages: Java, Python (Basic), SQL, HTML5, CSS3, JavaScript

Networking: TCP/IP, Subnetting, OSI Model, OSPF, EIGRP, BGP (Basics), VLAN, STP, VTP, EtherChannel, ACL, NAT, DHCP, DNS, IPv6, VPN, Cisco IOS, Network Troubleshooting

Operating Systems: Windows Server, Ubuntu, CentOS

Tools & Platforms: Cisco Packet Tracer, GNS3, Git, GitHub, Postman, VS Code, Spring Boot

WORK EXPERIENCE

Graphic Designer & IT Support

Thihagoda Studio

Sep 2022 – Sep 2024

Sooriyawewa, Sri Lanka

- Diagnosed and resolved computer hardware and LAN issues, ensuring minimal downtime for daily operations.
- Installed and maintained computers, printers, and network devices for office users.
- Supported over 20 office computers and network devices, providing technical support for hardware, software, and network-related issues.
- Produced high-quality graphic designs and managed end-to-end digital printing processes.

SELECTED PROJECTS

Project ENIX – Network Simulation & Web Application

Technologies: Cisco Packet Tracer, Spring Boot, HTML, CSS, JavaScript, MySQL

GitHub: github.com/suneththivanka128/ENIX

- Designed a network topology using VLANs, routers, switches, and firewalls.
- Developed a web application integrated with the simulated network environment.

FundManagementSystem-v2 – Financial Data Management System

Technologies: PHP, JavaScript, MySQL

GitHub: github.com/suneththivanka128/FundManagementSystem-v2

- Engineered a fund management system to track and manage financial data efficiently.
- Built robust backend processing and database logic for reliable record-keeping.

Torrivex-v1.0 – Media Downloader & Converter

Technologies: Spring Boot, yt-dlp, ffmpeg

GitHub: github.com/suneththivanka128/Torrivex-v1.0

- Built a high-performance media downloader and converter application.
- Integrated video/audio torrenting, FTP downloads, and media conversion pipelines.

Shop-POS-Mini – Offline-First Bakery POS System

Technologies: Vanilla JS, Tailwind CSS, Dexie.js

GitHub: github.com/suneththivanka128/shop-pos-mini

- Engineered a production-ready, offline-first POS system for high performance.
- Implemented Role-Based Access Control (RBAC) for secure multi-user access.

ATI SmartPay – Payroll Management System

Technologies: Spring Boot, JPA, iText

GitHub: github.com/suneththivanka128/atismartpay

Automated employee directories, biometric attendance logs, and bulk PDF payslip generation with experience-based salary calculations.

Offline OCR App – Multi-Platform Text Extraction Tool

Technologies: Flutter, Dart, Tesseract

GitHub: github.com/suneththivanka128/offline_ocr_app

100% offline OCR app extracting English and Sinhala text from images/PDFs, with clipboard paste and auto-preprocessing.

CakeWebsite – Responsive Bakery Platform

Technologies: HTML, CSS, JavaScript

GitHub: github.com/suneththivanka128/CakeWebsite

Fully responsive bakery product showcase site with an elegant UI and smooth navigation.

TAS v2.0 (Enix_Algos_v2) – Algorithmic Trading Analysis System

Technologies: Python, Machine Learning, Binance API

GitHub: github.com/suneththivanka128/Enix_Algos_v2

Modular trading analysis pipeline with Smart Money Concepts, Elliott Wave analysis, market regime detection, and ML confidence scoring.

ENIX-Algos – Algorithmic Trading Signal Engine

Technologies: Python

GitHub: github.com/suneththivanka128/ENIX-Algos

Early-stage market analysis engine generating instant trading signals, later evolved into TAS v2.0.

EDUCATION

Higher National Diploma in Information Technology (HNDIT)

Sri Lanka Institute of Advanced Technological Education (SLIATE)

Core Modules: Network Administration, Object-Oriented Programming, Database Management, Systems Engineering.

Current GPA: 3.9/4.0

2023 – Present

Dehiwala, Sri Lanka

Computer Hardware Technician (NVQ Level 3 & 4)

Department of Technical Education & Training

Completed

Sri Lanka

G.C.E. Advanced Level – Physics / Combined Mathematics / IT

H/Sooriyawewa National School

Aug 2021

Sooriyawewa, Sri Lanka

CERTIFICATIONS & TRAINING

CCNP Enterprise: Core Networking – Cisco | CCNA: Enterprise Networking, Security, and Automation – Cisco | CCNA: Switching, Routing, and Wireless Essentials – Cisco | CCNA: Introduction to Networks – Cisco | Industrial Networking Essentials – Cisco | Network Technician Career Path – Cisco | IT Essentials – Cisco | Web Design for Beginners – University of Moratuwa | User Interface Design With Figma – Alison

SOFT SKILLS

Analytical Thinking & Complex Problem Solving | Effective Communication & Team Collaboration | Adaptability & Quick Learning | Time Management & Project Organization

LANGUAGES

Sinhala: Native / Bilingual Proficiency | English: Professional Working Proficiency
